CODE of CONDUCT

for the HEART Pride, StarLion Journeys, Animaltalk Africa Workshops and events including Virtual Events.

Please read through carefully.

I agree that being a member of the HEART Pride means entering into, and engaging in, a sacred space. Here I strive to adhere to the principles of the heart refraining from any personal judgements, fearmongering or bullying. I agree to maintain a sense of Pride and honesty in our work together as a community in support of Nature.

I agree to respect the privacy and confidentiality of my fellow members, including not soliciting anything from them or promoting anything for personal business gain, during or following any events through the contact list that may be made available to me (except with their express permission).

I agree that no images, footage, video links or information received whilst being within the HEART Pride space may be shared outside of that space.

As an event participant I understand and agree that the steps and process of the Animaltalk Africa Interspecies Communication Method and HEART- (Heart Energy Achieving Real Transformation) Method may seem deceptively simple but that teaching these Methods requires significant training and certification by Animaltalk Africa as an instructor. Completion of seminars/webinars/courses offered to HEART Pride members is for my individual benefit only and I agree not to advertise and conduct workshops, seminars, presentations or otherwise teach Animal/Interspecies Communication to the public without becoming a certified instructor. Teaching the contents of these courses to the public without certification – whether or not for personal financial gain – is in violation of this agreement.

However, I understand that I may share this method with others in informal gatherings where no fees are charged, on the condition that the gathering understands that I have no qualifications to teach Animal Communication, and I inform AnimalTalk Africa (Wynter Worsthorne) of my intentions.
